The Galion 500U/T and 503U/T bodies are excellent for over-the-highway aggregate hauling. It is also ideal for construction and batching work, and for hauling and spreading stone, sand, gravel, and other aggregates. These bodies utilize high tensile steel throughout for best resistance to abrasion. This is the largest of Galion's body product line and can be used with underbody or telescopic hoists.

- Available in 12' to 17' lengths
- 7 gauge high tensile 50k steel floor
- Material shedding boxed top rails
- 6 or 9 panel tailgate
- 7 gauge high tensile construction throughout
- Tarp-friendly upper gate hardware
- Full-depth rear corner posts
- Zinc thermoset primer with glossy black powder coated top coat
