

## 130U & 133U Specifications

### General Dimensions:

Available in inside lengths from 8' through 11'-6" , 84" inside width with 13" sides and 19" gate or 18" sides and 24" gate.

### Sides:

10 Gauge high tensile steel with material shedding boxed top rails, full depth 10" rear corner post and smooth design.

### Floor:

3/16" high tensile steel 1 pc with 2" formed in place floor to side radius.

### Front Bulkhead:

10 gauge high tensile steel construction with two bend top flange.

### Tailgate:

10 gauge high tensile steel. 3 panel design with full perimeter box bracing, double acting design with long chains and two sets of banjo eyes.

### Tailgate Hardware:

Heavy duty cast quick release top hardware and cast overshot lower hardware with manual release handle. All stainless on 133U.

### LED Lights:

Meets all requirements of FMVSS108 with oval stop/tail/turn lights recessed in rear post. All lighting is recessed, shock mounted, complete with factory wiring harness.

### Understructure:

Crossmemberless design using 3/16" high tensile steel formed into 7" or 9" trapezoid longills. Lubricated front and rear cross shafts and full width rear bolster.

### Safety Features:

All complete Galion 130U and 133U bodies with hoists are shipped with a "body up" warning light and OSHA required back up alarm.

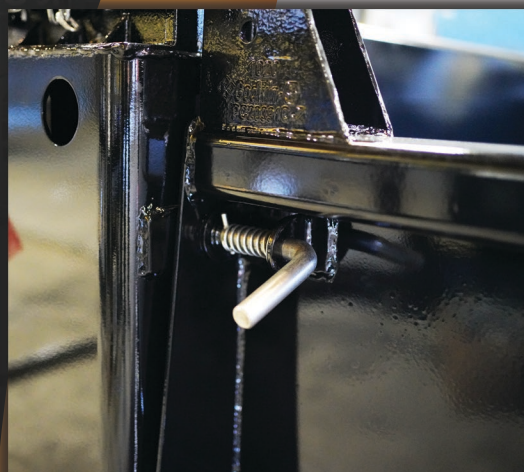

### Options:

304 #4 stainless steel construction  
304-2B stainless steel construction  
201-LN2B stainless steel construction  
201 #4 stainless steel construction  
Upgrade steel or stainless gauges  
1-piece 3/16" floor of material choice  
Coal door in gate  
Single release tailgate hardware  
Integral cab protector (with or without window)  
Bolt on spreader apron  
Fold down sides  
Stainless cross shaft  
7" longill or 8" I-beam understructure  
Various hoist options

Galion-Godwin Truck Body Co. LLC.

## 130U & 133U Series Dump Bodies

The Galion 130U and 133U bodies are designed for superior service on 9,900 - 19,500 GVWR cab/chassis'. These bodies feature a 3/16" high tensile steel floor, 10 gauge high tensile tailgate, head sheets and sides.

The 133U is constructed with stainless steel while the 130U uses high tensile carbon steel. Front corner posts, smooth sides, full depth rear corner posts and boxed "material-shedding" top rails are also standard.

- Available in lengths of 8' to 11'-6"
- For 9,900 - 19,500 GVWR cab/chassis
- Material shedding boxed top rails
- Double acting tailgate
- 3/16" high tensile floor with 10 gauge sides
- Crossmemberless understructure
- Quick release tailgate
- Zinc thermoset primer with glossy black powder coated top coat
